To the Shareholders of Afghanistan International Bank

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Afghanistan International Bank ("the Bank") as at June 30, 2020 and the related condensed interim statement of comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows, and the notes to the condensed interim financial statements for the six months then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with the International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and the Law of Banking in Afghanistan and other laws and regulations issued by Da Afghanistan Bank. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not give a true and fair view of the financial position of the Bank as at June 30, 2020, and of its financial performance and its cash flows for the six months period then ended in accordance International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and the requirements of the Law of Banking in Afghanistan and other laws and regulations issued by Da Afghanistan Bank.

10.1 Receivable from DoJ

This represents receivables from the United States Government department, Department of Justice (the "DoJ"). Pursuant to Title 18, U.S. Code Section 981(k), the United States sought to reach the customer's Afghan-based accounts by seizing funds amounting to AFN 565.701 million (equivalent to USD 10.1 million) from the Bank's correspondent account in the United States, however, the United States has not alleged any wrongdoing against the Bank. In September 2013, the United States returned to the Bank approximately USD 5.770 million, plus accrued interest, of the seized funds. In September 2015, the court ruled that AIB lacked standing to claim the funds amounting to USD 147,938.59 of the remaining USD 4.330 million. During May 2020, the Department of Justice voluntarily dismissed the case against AIB with prejudice. The remaining seized funds amounting to USD 4.182 million plus accrued interest have been returned to the Bank.

10.2 This represents provision maintained as per ACPR issued by DAB.

24 Fair value of financial assets and financial liabilities

IFRS 13 "Fair Value Measurement" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(a) Financial instruments measured at fair value

The table below analyses financial instruments carried at fair value, by valuation method. The various fair value levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 AFN '000	Level 2 AFN '000	Level 3 AFN '000
Investments in bonds - debt instruments at FVOCI As at 30 June 2020 - Un-audited		7,875,649	-
Investments in bonds - debt instruments at FVOCI As at 31 December 2019- Audited		7,837,520	-

STA

Valuation technique and key inputs used for investments in bonds were quoted market bid price in active market.

There were no transfers made among various levels of fair value hierarchy during the period.

(b) Financial instruments not measured at fair value

The carrying values of all other financial assets and liabilities approximate their fair values as at the date of statement of financial position.

(i) Investments:

These include debt instruments measured at amortised cost.

(ii) Loans and advances, other assets and other financial liabilities

Fair value of loans and advances, security deposits and other receivables and all the financial liabilities cannot be calculated with sufficient reliability due to absence of current and active market for such assets and reliable data regarding market rates for similar instruments, so its carrying amount is its fair value. The provision for loans and advances has been calculated in accordance with the Bank's policy and regulations issued by DAB.

(iii) Off-balance sheet financial instruments

The fair value of the off-balance sheet financial instruments is equal to the carrying amounts.
